Therma Brackets (2024)

Mounting brackets for cryogenics

Aluminum Therma brackets are angle mounting brackets for mounting small items and devices to cryostat plates. Au-plated copper Therma brackets have slit-type openings for M4 screws. There are three different sizes of Therma brackets: 30 x 70 mm, 35 x 100 mm, and 45 x 150 mm.

Main features

- Three different sizes:
 - 30 x 70 mm, 35 x 100 mm, and 45 x 150 mm
 - Width always 10 mm
- Slit-type openings (width 4.5 mm) for M4 screws (or smaller)
- Non-magnetic Au plating on top of copper C101
- Polished main contact surfaces
- Mounting to cryogenic stage with 20 mm x 20 mm grid:
 - Model 30 x 70, any direction using one screw (bottom in Fig. 1)
 - Model 35 x 100, any direction using one screw, two screws possible in certain positions along main grid axis (2nd from bottom in Fig. 1)
 - Model 45 x 150, any direction using one screw, two screws possible also diagonally (top two units in Fig. 1)

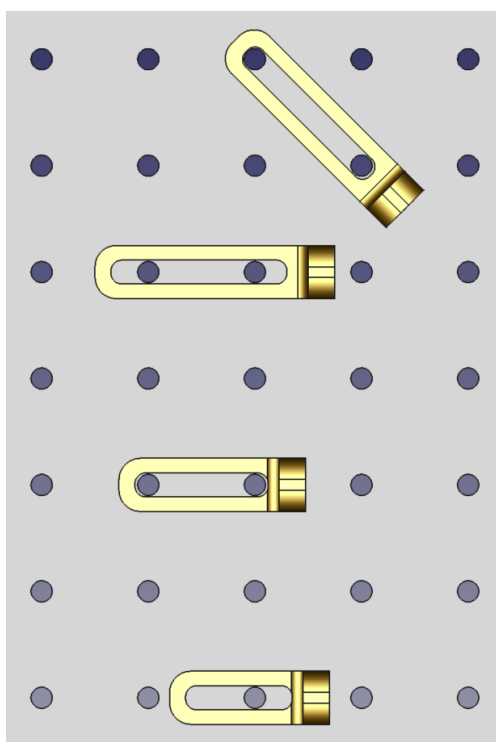

Figure 1: Mounting options onto 20 x 20 mm grid
